Portland, OR 97205

Dear Mr. Velansky

I am applying for the Inside Sales Consultant position at the Portland offices of Unifusion. After investigating Unifusion's portfolio, I not only appreciate your product, but would be excited to market it.

I have experience programming in a behavioral genetics laboratory under the direction of professors Susan C. P. Renn and Albyn Jones. In my research with them, I solved applied problems having to do with interpretation of data using *R*, a language new to me at the time. I found the work satisfying, so much so that my last subject of study at the laboratory evolved naturally into my senior thesis. Since graduating, I have been pursuing computer science and programming (in Haskell, Java and Scala) as a hobby — auditing courses and embarking upon personal projects. Although by no means an expert, I am comfortable talking about computer technology, and in fact eager to learn more about it.

I am detail oriented, patient and because of my rigorous education, accustomed to tackling multiple projects simultaneously. I have strong social skills, as evidenced by my four years as a member of the Reed College ultimate frisbee team and a recent volunteer position as an outdoor trip student leader. I am sharp and calm, a goal-oriented team player. These skills and characteristics make me a good choice for the Inside Sales Consultant position. I would appreciate the opportunity to further discuss my background and the position with you, either over the phone or in person. I can be reached by phone at (714) 362 6823 or by email at andywinterman@gmail.com.

Thank you for reviewing my application.

Sincerely,
Andrew Winterman
